Beautiful Hungarian Map 2014

2015/03/10

A total amount of 40 maps entered the Beautiful Hungarian Map competition this year. The most beautiful of them will be selected and awarded by representatives of the cartographic profession on March 27, 2015, at 3 p.m., in National Széchényi Library. An exhibition of the maps can be seen until April 11 in the Ceremonial Hall of the Library.

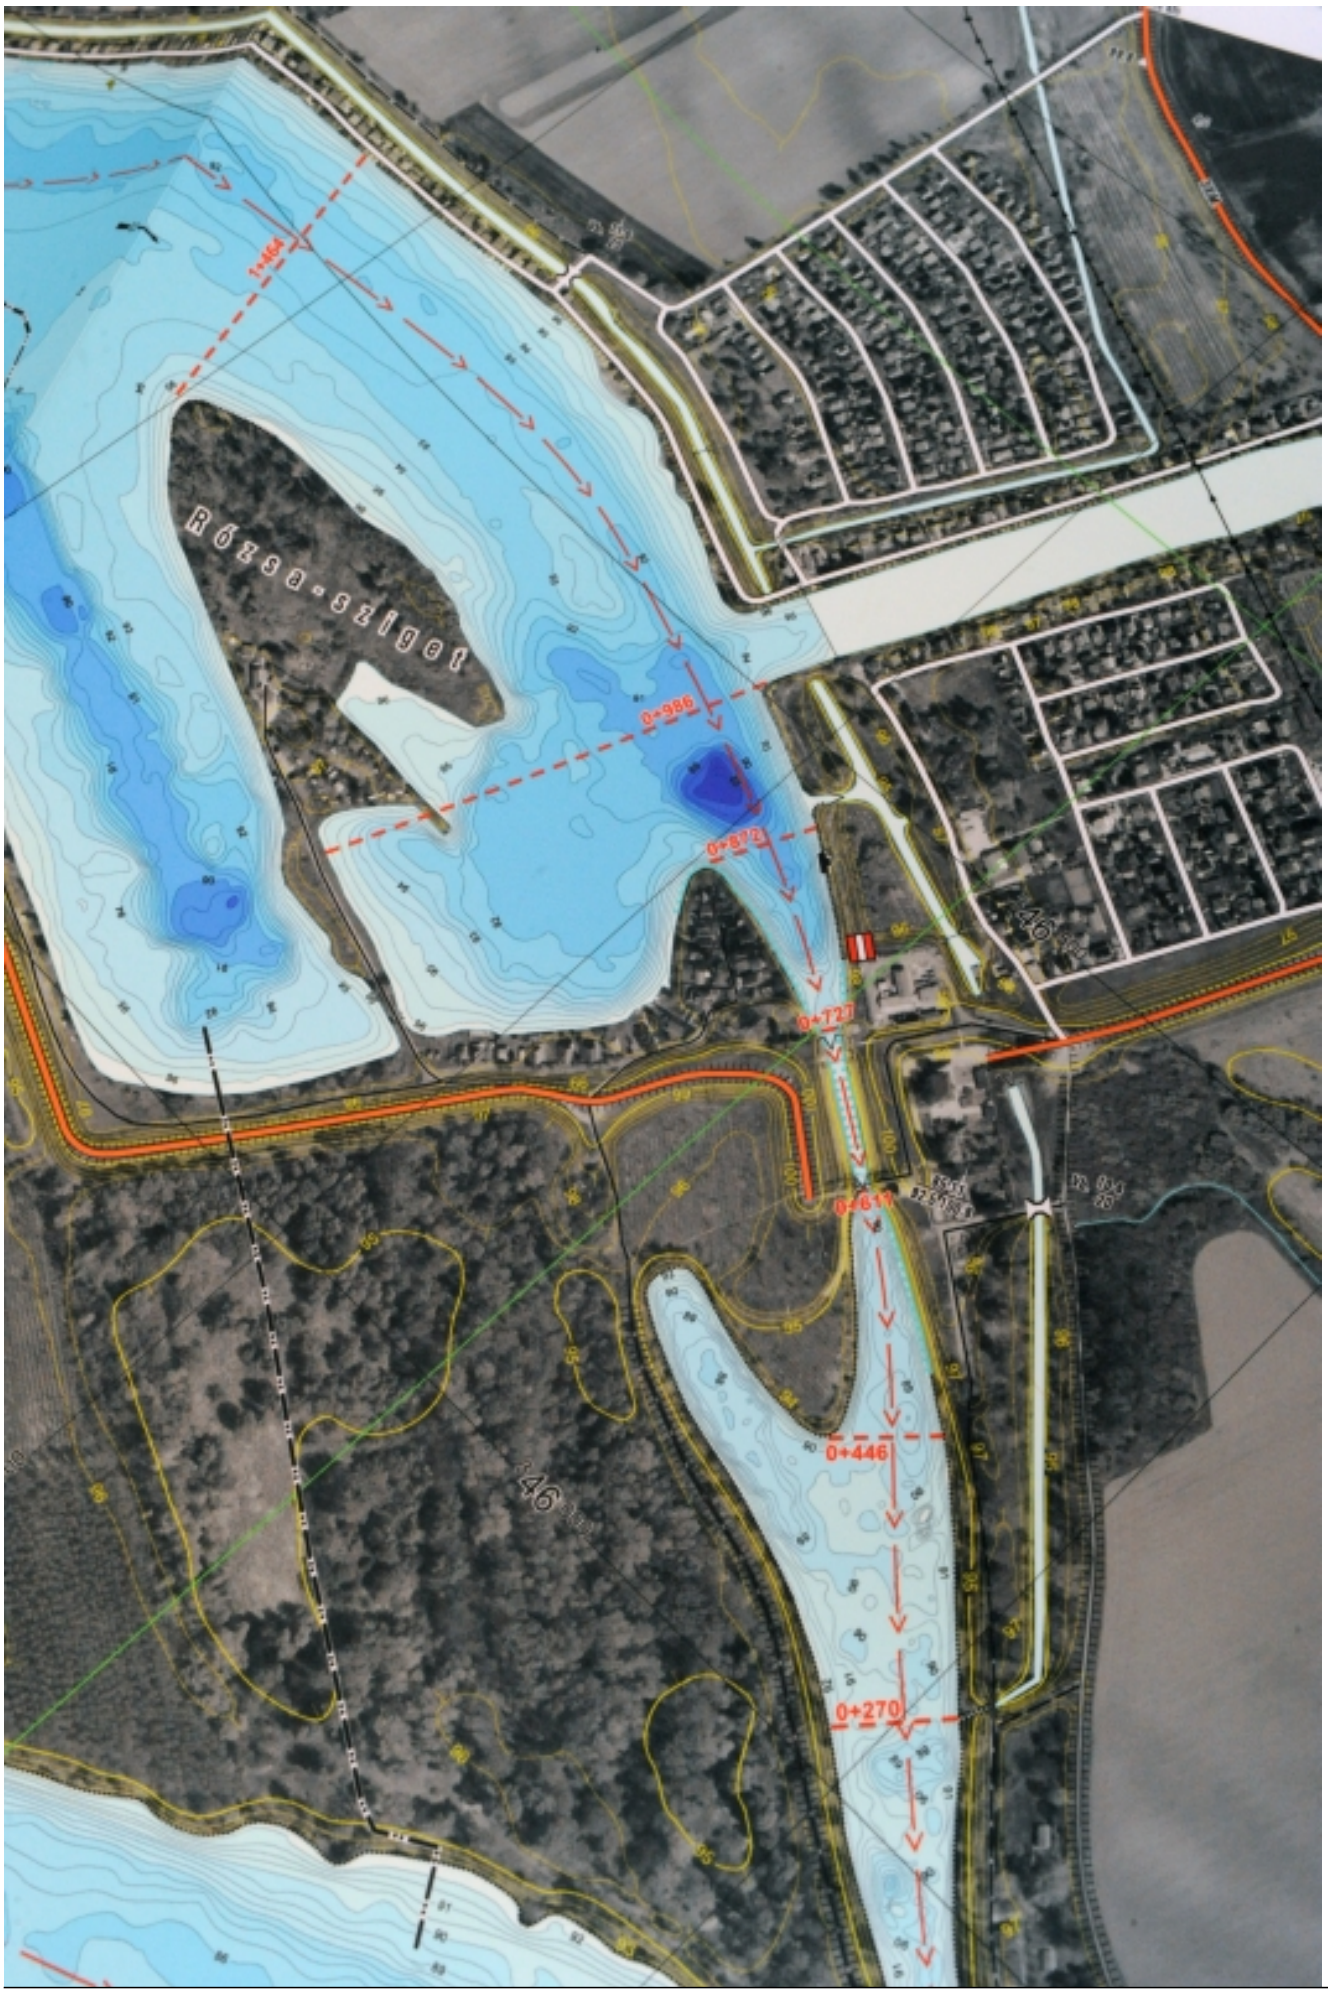

[1]Competition entitled Beautiful Hungarian Map was first launched in 1996, with the aim of raising the level of Hungarian map culture and making it possible for beautifully made maps to penetrate the market. In order to meet both requirements, the Department of Cartography and Geoinformatics at ELTE University, Budapest (formerly Lázár deák Térképészeti Alapítvány, Scribe Lazarus Cartographic Foundation) and National Széchényi Library announce the so-called Beautiful Hungarian Map competition each and every year.

This year's entries [2] have been evaluated and awarded by a jury including experts as well as laymen. Head of the jury was Dr. László Tüske, Director-General of National Széchényi Library. The exhibition of map entries gives an overall picture of products of the Hungarian cartographic

profession for the general public.

An exhibition of items sent in for the Beautiful Hungarian Map 2014 competition will be open between March 27 and April 11, 2015, in the Ceremonial Hall of National Széchényi Library on Floor 6, during the opening hours [3] of the Library. Attendance is free at the opening ceremony.
Maps of the Beautiful Hungarian Map 2014 competition are displayed with the aim of letting companies and organizations, making cartographic works, as well as the latest Hungarian cartographic trends be better known for the general public, not just for those who are members of the cartographic profession.
