Printed Hungarian globes and projections

2017/01/10

On January 18, 2017 a new book by Katalin Plihál, previous head of NSZL’s Map Collection, will be presented at the headquarters of FŐMTERV Rt. This is the first ever publication to include the description of all the currently known Hungarian globes. The attached DVD includes 72 of these globes in a digitally zoomable and rotatable form.

Plihál Katalin
Nyomtatott magyar föld- és éggömbök
1840–1990
