Microfilm Reading Room will be renewed

2017/10/19

As part of our IT development project, the furniture of NSZL’s Microfilm Reading Room will be renewed between November 4 and 11, 2017. During these days, a limited possibility to read microfilms will be provided in the General Reading Room of the Library.

Dear Readers,

As part of our IT development project, the furniture of NSZL’s Microfilm Reading Room will be renewed between November 4 and 11, 2017. During these days, a limited possibility to read microfilms will be provided in the General Reading Room of National Széchényi Library. No scanning services will be provided between November 4 and 11, and copy making requests can be submitted at the desk of our General Reading Room, or you can send your requests directly to the Digitizing Department at dio@oszk.hu [1]. With any emerging problems you can contact us via e-mail: inform@oszk.hu [2].

Thank you in advance for your understanding and patience.
