Responsible economic and management decisions – with library support – video conference and workshop at the NSZL

2021/05/27

Event of the National Széchényi Library and the Association of Hungarian Information Brokers on June 9, 2021 – invitation and online registration

The National Széchényi Library and the Association of Hungarian Information Brokers are organising a video conference and workshop entitled *Responsible economic and management decisions – with library support* [1].

Through Dutch examples, the conference held in Hungarian will

- provide an insight into how the library services information to users in the field of economics,
- presents a national, free, non-library ‘article database’, and
- summarises the content of the questionnaires completed by libraries in Hungary on this topic.

After the presentations participants will have the opportunity for further discussion.

Event date: June 9, 2021 (Wednesday) 9:00–12:20

Participation is free, but registration is required. You are welcome to register using the online form [2].
